VOLUME 23.

MONETT, MISSOURI, FRIDAY, NOVEMBER 18, 1921.

NUMBER 12.

THE DEHYDRATION PLANT IS UNDER FULL SWAY

Monett is putting forth her greatest efforts to secure the necessary capital to build the biggest enterprise ever confronting her, and is now receiving the endorsement of all the subscribers below and many others from rural districts and adjoining towns, are adding their names every day. The big plant is positively assured but it is necessary that in order to start the building that every one put their name on the list as quickly as possible. DO IT NOW.

Freistatt had a very successful meeting Wednesday evening, quite a number being present and very heartily endorsed Dehydration.

A big Growers meeting will be held Saturday at Assembly hall. All growers are urged to attend.

Citizens and growers get in and help put this quota over at once. Don't wait to see what the other fellow is doing. Let's finish at once and start the building to be ready for the spring crops.

The following have done their part will you help?

CHINA OFFERS FAR EASTERN PLAN

Open Sympathy of U. S. With Position of Oriental Nation is Manifested, with British Supporting It.

Washington, Nov. 16.—The Washington conference today turned to consideration of far eastern questions with almost the same momentum with which it tackled the question of naval armaments.

It was the Chinese delegates who led the way this time. In the committee of nine, at which all nations participated were represented, they produced a basis for discussion which represents their views.

The open sympathy of the United States with their position was at once manifest. The British supported it in many respects. The positions of the others were not so clearly defined, although members of the Japanese delegation have given expression of approval, in part at least of China's "bill of rights."

In brief China wants guarantees for territorial integrity and political and administrative independence; she proposes the open door for all in all parts of the country; she wants all spheres of influence relinquished she wants no treaties made affecting her without being consulted about them.

The full extent of China's proposition is much broader than this, but these are the essentials. The last feature may be construed as affecting the Anglo-Japanese alliance, although the British take no opposite view.

Youth's Optimism

If the "rosy optimism of youth" could be transformed to foresight, average old age would be brighter. Poorhouses are filled with those who invested years of life in honest toil with nothing in old age to show for it; They were once strong, young, hopeful, earning money—BUT THEY DID NOT SAVE.

This is not a sermon, but the expression of an evident truth with a twofold purpose; FIRST to suggest for four serious consideration a systematic savings plan; SECOND to secure for ourselves the privilege of having your savings account with this bank.
